MENINGKATKAN
FUNGSI KOGNITIF

With 200 years of experience, knowledge, and innovation in the palm oil industry, **Sime Darby Plantation is the World's Largest Producer of Certified Sustainable Palm Oil**. As a leader in innovation, we produce superior quality products, and create better values especially for Malaysians.

Tocotrienol is one of the greatest natural sources in palm oil. It has incredible anti-inflammatory properties and 60 times more potent as an antioxidant compared to regular Vitamin E. It helps to protect and stabilize cells, healthy tissue, and organs particularly the liver, heart, and brain.

ALIF is also the **first cooking oil in Malaysia enriched with Vitamin D3** that helps improve the immune system.
